Network Bulls has become the synonym of Top Cisco CCNA, CCNP & CCIE Training in the world. Every year over 3 thousand students enroll themselves with NB for Cisco training. **14400+ students** have done their Cisco CCNA, CCNP & CCIE Certifications in various tracks in last 7 years. One of the remarkable milestones of Network Bulls has been delivering **over 90% first attempt CCIE Success rate** for two consecutive years 2015 and 2016.

And the major contributor in this success has been Network Bulls' Cisco Training Labs. For Cisco networking aspirants practical on real devices is really critical and that is why training institutes having advanced and real Cisco devices are a good option. Our Labs are among the world's top 3 Cisco Training Labs but what makes it one of the best in the world. Let's explore the 4 A's behind it.

1. Availability of all necessary latest & real Cisco devices

The most important factor that makes a Cisco training lab world class is the availability of latest as well as advanced real Cisco devices. Lab training is an indispensable part of Networking. As we all know Cisco keeps upgrading its technology and course curriculum so practicing on old devices or through simulators must be avoided.

Students must choose a training company that runs a Cisco lab which is regularly upgraded and is well equipped with real devices. Practicing on real Cisco devices is very essential for all aspirants aiming to achieve CCNA, CCNP and CCIE certifications.

Network Bulls CCNA Lab

Network Bulls labs are well equipped and fully loaded with latest Cisco devices, labs are arranged as per Cisco Certification levels i.e. CCNA, CCNP & CCIE. In NB CCNA Labs students can practice with Routers of 1841, 2611xm, 2801 and 2811 series; Switches of 2950, 2960 and 3550 Series. This makes Network Bulls, [The #1 CCNA Training Institute in India](#).

Network Bulls CCNP R&S, Security and Collaboration Lab

Network Bulls lab has separate CCNP practical sections fully equipped with multiple racks with all relevant devices. Under Network Bulls CCNP Lab, students can work on Routers - 1841, 2611xm, 2801, 2811, 2911, 3640, 3825, 2911 series; Switches - 3550, 3560, 3750 series; ASA Firewalls - 5510, 5512x, 5515x, IPs - 4240, 4255; Iron Port - S170; ISE - 3315 and IP Phones - 7961, 7970, 9971.

Network Bulls CCIE Lab

Known as World's Biggest CCIE Training Lab, we have all the racks fully equipped according to Cisco's CCIE Lab exam equipment checklist. Having multiple racks for [CCIE Routing & Switching V5](#), [CCIE Security Version 5](#) and CCIE Collaboration Lab exam preparation, NB's CCIE Lab is undoubtedly the most admirable CCIE training facility across the globe.

2. Accessibility of Labs is 24x7

At Network Bulls, we have always put great emphasis on practice and practical training. We understand the importance of hands-on training and that no amount of theoretical learning will suffice if there's no practical learning. This is exactly why we've kept our labs open round the clock.

Yes, you heard it right !!

Network Bulls labs are accessible to students 24x7, day and night, 365 days in a year. That is why our student love our labs and practice as per their convenient schedule. We provide access to fully-stacked racks to every student joining Network Bulls. This arrangement makes for a smooth and quality learning curve for all the students. On top of this CCIE Lab Training rack access is allowed for 45 days after the training as well. Isn't it awesome??

3. Assistance in the lab - A CCIE Lab Instructor will never be far away

A world class lab will have people to walk you through during problems. There will be times when you'll encounter challenges and obstacles while you practice. The presence of an instructor or a trainer in the lab will always be helpful during such situations.

At Network Bulls you will always find either a lab instructor or trainer to help you around. Our lab instructors & trainers are CCIE Certified. While doing practice having support of a right lab instructor or trainer is just blessing. With their help you can learn easily and correct way of working on devices. Have a look at our [Amazing Team of CCIE Trainers here](#).

4. Aspirational Learning Environment

CCIEs inspire others to be a CCIE. The learning environment is always infectious and matters a lot. Cisco aspirants should choose a CCIE training institute which has **vastly experienced and CCIE Certified trainers** as well as very high CCIE Success rate. CCIE is world's highest paid and most demanded IT certification; this means it is equally tough to pass.

So only professionals who have successfully passed CCIE can teach you or guide you on **“How to clear CCIE exams in 1st attempt or in fewer attempts?”**

Network Bulls has the biggest team of CCIE Certified trainers and highest 1st attempt CCIE Success rate. For the past two years CCIE 1st attempt success rate at Network Bulls has been over 90% and that is World's Highest. That makes learning environment at Network Bulls' Cisco Lab as aspirational as it can get. When you see everyone around you chasing same dream, it's easy to find synergy and motivation to achieve your CCIE dreams.
